For growing numbers of people with jobs in New York, the American Dream is slipping further out of reach.	programs that can belo economically merginalized New Yorkens land hence joints to support their families—have using proven more provemanced. The second W Within model 20 percents of all working families in the state scars here than tracks the federal proventing. In 3 percent and working families in the land solution working families in the New York Work (New Work) families and the second provesting families in the 1990, and increase of about 6.300 (4.5 percent) shows the proverty level (increased by families (1.600) (4.6 percent) shows and large bolion present) level increased by family families in the New York (1.600) and the probability of the second by family families in the comparison of the second percent) level increased by family families in the percent years in 2002 to 2017/9719 an 2002." When these transmess provides the percent have the spectral more than a third of their timoure on busing increased by rangingly 5.500 between 2002 and 2007, an increase of 4.8 percent."

Report - March 2006

More Hard Times for New York's Working Families

This new report by the Center for an Urban Future and the Schuyler Center for Analysis and Advocacy reveals that the number of working poor families in the state has continued to rise in recent years.
